

What have we been learning in Early Years this week?

14th - 18th January 2019

The children have done some fantastic learning this week. They are really engaged in our Dinosaur topic at the moment and love to learn more about the different species.

Read, Write, Inc/ Literacy

We would appreciate it if you could practise these sounds with your children at home:

g, c, k, u, b, f, e, l, h, sh, r, v, y, w, x, z

The children have thoroughly enjoyed working together to create the dinosaur jigsaw this week. We have been learning to listen to our friends ideas and take turns fairly.

The children found lots of pants around our room this week, we supported the children in describing the pants. Some wrote a list of words, others wrote sentences.

Mathematics

This week in Maths we have been ordering numbers to 10 and 20. To add challenge some numbers were missing. We found the missing numbers and reasoned why the number belongs in it's place by using language such as 'because it's bigger than 4' or 'because it's smaller than 5'.

The children have loved listening to each other read this week in our Teacher role play! They have carefully stretched and blended sounds using fred talk to read the books. Some children have also helped others learn to read words. They have been very engaged in their reading this week and we are very proud of their progress.

Next week...

Literacy	Mathematics	Provision
Next week we are entering the Young Writers poetry competition for Reception children. It is all about using our senses. We will do this with the children and send them off to Young Writers. Each pupil who enters will receive a My First Riddle bookmark and selected poems will be invited to be published. How exciting!	Next week in Maths we are learning about one more and one less.	Next week our Dinosaur focus will continue and will be enhanced by various texts.
