

# What have we been learning in Early Years this week?

4<sup>th</sup> - 8<sup>th</sup> March 2019

We have sent home sponsorship forms for our Early Years Alien walk. Any donations would be greatly appreciated and if you would like to join us on our walk please let a member of staff know.

## Read, Write, Inc/ Literacy

We would appreciate it if you could practise these sounds with your children at home:

g, c, k, u, b, f, e, l, h, sh, r, v, y, w, x, z

ch, sh, th, ng, nk, qu

The children have answering questions from the book *You Choose* by Nick Sharratt. The children loved this book and have enjoyed reading it in the provision.

A huge thank you to all the parents who helped the children source a World Book Day costume. We had some fantastic book characters and mad scientists! The children thoroughly enjoyed the aspects of role play this brought.

## Mathematics

This week we have been learning how to subtract. The children have found this tricky and have needed some support. Therefore we will continue learning about subtraction next week in order to consolidate their learning.

We set up a pancake day shop in our Maths area this week. The children took turns being the chef and the customers. They were able to use 1p and 2p coins to find ways of making the amounts asked for, showing that they have consolidated their learning from previous weeks. One child said "After all those pancakes, I might be sick!"

**Next week...**

<b>Literacy</b>	<b>Mathematics</b>	<b>Provision</b>
Next week the children will be creating information posters about space.	Next week in Maths we are consolidating subtraction.	Next week we will be continuing our Space theme as it is science week. We will be learning lots about space particularly focusing on Major Tim Peake.
