

# What have we been learning in Early Years this week?

11<sup>th</sup> - 15<sup>th</sup> March 2019

We are so proud to share with you that 17 of our very own Reception children have been chosen to be published in My First Riddle 2019! Our children are growing into wonderful writers!

## Read, Write, Inc/ Literacy

We would appreciate it if you could practise these sounds with your children at home:

g, c, k, u, b, f, e, l, h, sh, r, v, y, w, x, z

ch, sh, th, ng, nk, qu

The children have been writing facts about space this week. They have also loved watching videos from Tim Peake.

A huge thank you to all the parents/ carers who joined us for stay & play. The children had a wonderful time and we hope you did too. Thank you for the feedback also, we will incorporate the ideas you have shared with us in our next stay & play.

## Mathematics

This week we have been consolidating subtraction. The children are now much more confident at taking away from a number either by using marks and crossing them out or using a number line. We know they are more confident as they have been subtracting independently in the provision.

The children have been potion making for science week this week! They have had a brilliant time experimenting with the different 'ingredients' and making new colours and potions. The children have also developed their fine motor and communication skills in this area this week.

**Next week...**

<b>Literacy</b>	<b>Mathematics</b>	<b>Provision</b>
Linking to Spring, the children will learn about the lifecycle of a plant and write about this.	Next week in Maths we are introducing doubles.	The children have started to show an interest in Spring after seeing flowers around our school. Therefore we will be introducing Spring into our provision next week.
