

What have we been learning in Early Years this week?

18th - 22nd March 2019

Thank you so much to all those who have donated following our Alien Walk. We will release the total next week and what we plan to buy with the money you have raised. A huge thank you to you all from both the children and the staff!

Following the children's interests, we have been learning all about Spring. The children enjoyed using our Flowers book to draw and label their own flower. Some children decided they wanted to look into fruit, so we sourced some real fruit for the children to paint. Just look at their masterpieces!

The children went on a Spring walk on Thursday to see how our school environment had changed since Winter. We found buds, flowers, insects, birds, green leaves and Mrs Rumsey's class even saw a squirrel! The children collected various things to investigate on their walk, and they chose to make numbers and letters with the natural resources we collected.

Read, Write, Inc/ Literacy

We would appreciate it if you could practise these sounds with your children at home:

g, c, k, u, b, f, e, l, h, sh, r, v, y, w, x, z

ch, sh, th, ng, nk, qu

The children have been writing about the things we might see in Spring. We have noticed some children struggle to name animal babies, so this may be something to help your child with at home.

Mathematics

This week we have been learning about doubles. The children have been working hard to double numbers using a variety of resources. Some children even progressed onto finding doubles to 20.

Next week...

Literacy	Mathematics	Provision
Our Literacy next week will link to Mother's Day.	Next week in Maths we will be learning about finding half.	We will continue with our Spring focus next week, we will be looking at growing and naming animal babies. There will also be added provision based around Mother's Day.
