

What have we been learning in Early Years this week?

6th - 9th January 2020

We hope you all had a wonderful Christmas and New Year, it has been lovely to hear about all the lovely things the children have been up to.

Read Write Inc.

The children are now in new phonics groups, they are still recapping set 1 sounds but some groups have begun to learn 'special friends'.

Miss Hazelton's group - ch sh

Mrs Holme's group - ay ee igh

Over Christmas we had a change in our classroom. The water area has now gone and has been replaced with a playdough making station. The children have been learning how to use this new area and have been creating playdough. They can keep this playdough in their trays to use at school and can make more whenever they please!

Mathematics

In Maths this week we have been learning about one less. The children are very good at finding one more and are now becoming more confident at finding one less. We will continue this into aspects of our teaching next week to secure understanding.

We have been learning about The Three Little Pigs. The children have loved hearing the story so much they decided to act it out in the role play. Others designed and built houses for the pigs!

Next week...

RWI	Mathematics	Provision
Next week children will be learning more special friends and consolidating set 1 single letter sounds.	Next week in Maths we will be introducing numbers 11 and 12 to the children.	Our provision is based around The Three Little Pigs next week as the children are thoroughly enjoying this story. Any model making materials would be greatly appreciated.

If anyone has any spare pants or uniform they are able to donate to Reception this would be greatly appreciated.
